Global Strategies Group Awarded \$11.8M in Task Order Modifications for U.S. Army Corps of Engineers in Afghanistan

LONDON, 26 March, 2010 – Global Strategies Group (GLOBAL), a leading provider of integrated security and defence technology, was awarded two task order modifications, worth \$11.8M, as part of a Reconstruction Security Support Services (RSSS) contract to provide security services in support of the U.S. Army Corps of Engineers (USACE) in Afghanistan.

The announcement follows the recent award of a \$34M task order for RSSS in December. This new task order will see GLOBAL expand its services, currently focused in Kabul and Kandahar, to establish a National Operations Center providing intelligence capabilities and analysis, reconnaissance teams, interpreters, and aviation services throughout Afghanistan. Under the contract, GLOBAL will also provide mobile security support services to USACE personnel travelling to and from, and whilst at, construction sites.

The security services provided by GLOBAL will help enable USACE to achieve its critical reconstruction efforts within the Afghanistan Engineer District.

About Global Strategies Group

Global Strategies Group (GLOBAL) is one of the world's leading providers of integrated security and defence technology for clients operating in high-stakes situations – when the problem is complex, when the mission is vital and when ingenuity is key. We empower our clients to achieve their toughest goals by strengthening national security, transforming critical environments and enabling opportunities.
